## Exemplars

Institutions worldwide are implementing initiatives across disciplines to bolster digital literacy capabilities for students and help faculty integrate 21st century skills into curricula. Higher education leaders should take note of the following examples of programs and learning opportunities designed to facilitate content creation, increase technology fluency, and promote critical thinking:

### All Aboard

[go.nmc.org/allaboard](http://go.nmc.org/allaboard)

A number of Irish universities are collaborating in the All Aboard project, comparing digital literacy and professional development frameworks, exemplars, and models in order to develop Creative Commons resources that encourage faculty and students to build their literacy and confidence in technology use.

### Big Fish School of Digital Filmmaking

[go.nmc.org/bigfi](http://go.nmc.org/bigfi)

Big Fish School of Digital Filmmaking in South Africa aims to create socially-conscious digital content producers and storytellers by arming students with digital skills and technical training to create meaningful, engaging narratives with potential to inspire positive action and innovation.

### Colgate's Digital Learning and Media Center

[go.nmc.org/dlmc](http://go.nmc.org/dlmc)

Colgate University's Digital Learning and Media Center (New York) is a flexible multi-use learning space housed in the Case Geyer Library. It is staffed with student media mentors to provide student and faculty support and workshops on utilizing new tools or implementing them into courses.

### Data Information Literacy

[go.nmc.org/datainf](http://go.nmc.org/datainf)

The Institute of Museum and Library Services is funding research teams from Purdue University, the University of Minnesota, the University of Oregon, and Cornell University to work with university faculty in developing and implementing a data information literacy curriculum that addresses knowledge and skills gaps arising from the continued evolution of technology driven research.

### The Digital Fluencies Project

[go.nmc.org/digflu](http://go.nmc.org/digflu)

The Digital Fluencies project initiated by Penn Libraries at the University of Pennsylvania consists of workshops open to faculty and students across all disciplines and schools. They focus on understanding, producing, and legally distributing digital media.

### Digital Literacy Expertise by Stealth

[go.nmc.org/tee](http://go.nmc.org/tee)

An academic subject liaison librarian at Teesside University in England has arranged focus groups with cross-disciplinary faculty and students to identify elements of digital literacy they considered most meaningful along with preferred training mechanisms. This will help the library integrate targeted digital tools and face-to-face trainings into university curriculum.
